Why buy Hitachi?

SECURITY

You don't have to worry about security. Hitachi education projectors come with multi-level PIN-Locks, transition Detector, steel security bar, Kensington Lock point and a distinctive orange-for-education coloured casing option.

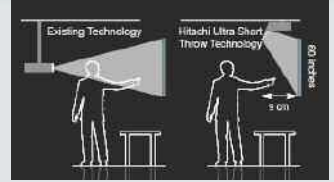

EASY TO USE

Plug in, turn on and teach. Hitachi projectors have a quick on/off feature, automatic resolution and a user-friendly teachers' remote control allowing you to concentrate on what matters - the lesson.

ECO-FRIENDLY

Hitachi's education projectors feature long life lamps and extended hybrid filters which significantly increases maintenance intervals, reducing the amount of electronic waste and protecting the environment.

NO GLARE

Traditional projectors dazzle people, Hitachi's unique Ultra Short Throw Technology means you don't stand in front of the projector so the light beam won't shine in your eyes.
